Dear Sir,

Re: Request for relaxation of movement of goods vehicles on exam days starting 27 March 2018

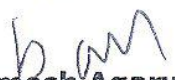

This has reference to the Traffic Regulations Circular No. TP/11 dated 21.03.2018 regarding restrictions proposed on movement of Goods Vehicles in the city on HS Exam days as well as for 11th standard's examination imposed by Kolkata Police – Traffic Department. We appreciate your concern for our children.

However, you will appreciate that imposing such restrictions on Goods Vehicles and that too for such long hours will adversely impact the businesses and in turn it will have a negative impact on the revenue for our state. We have received representations from many of our members to request your good self to kindly consider some relaxation in the restrictions. You will appreciate that in normal conditions the good vehicles are only allowed between 12 noon to 4 pm and these further restrictions will certainly harm the business activities.

Imposing restrictions during start of the examination and during the end is quite appreciated but would request you to kindly consider relaxation after 1 pm which will help in movement of goods to a certain extent and also support your concern for our children. Once the children have entered the examination hall, the restrictions may please be lifted.

Thanking you,

Yours faithfully,

(Ramesh Agarwal)
