

# MERCHANTS' CHAMBER OF COMMERCE & INDUSTRY

## Corporate Training Programme on Finance for Non-Finance Executives

on June 18, 2022 at MCCI Conference Hall

Merchants' Chamber of Commerce & Industry organised a Full Day Corporate Training Programme on Finance for **Non-Finance Executives** on June 18, 2022 at MCCI Conference Hall.

The Training Programme was conducted by **Dr. Saptarshi Dev**, Managing Director, Accenture.

Dr. Saptarsi Dev carries with him 20 years of rich experience in the area of business finance and technology consulting, with a strong track record of driving business growth and providing business value. He has strong technology and consulting experience on Finance, Supply Chain, Projects Operations and Reporting space.

The programme was designed to enable professionals, especially from functional areas other than finance such as sales, marketing, human resource, research and development, production, procurement and other to gain an extensive working knowledge of critical financial principles in an easy-to-follow manner, enabling them to make critical business decisions involving cost-savings, budgets, new projects decisions, financial planning, growth strategies besides others.

Topics like **Capital Budgeting & Financial Forecasting, Working Capital & Cash Flow Management, Ratio Analysis** and **Financial MIS** were covered at the Corporate Training Programme.

“For non-financial executives, to learn the financial concepts are a great way to improve the skills and abilities of managing the financial aspects of a business entity. Most Companies prefer

hiring those executives who have the basic knowledge of finance, in fact we all are decision makers in our own rights and to take the right decision, an understanding of Finance is important.” - **Shri Rishabh C. Kothari, President, MCCI**

“Finance for non-finance is important as it will help non-finance executives to analyze the financial statements, costs and benefits, forecast and take the corrective action for the

future. It helps the managers to evaluate the projects where the company is investing in and take right decision” – **Dr. Saptarshi Dev, Managing Director, Accenture.**

Over 75 Professionals across sectors and verticals participated in the programme. Participants got the opportunity to understand and analyze financial statements as well as grasp the basic fundamentals of finance.

Indeed an excellent session with lot of takeaways and feeling blessed to meet you all and especially Dr. Saptarsi Dev.- **Vikash Agarwal**, Executive, Edible Agro Products Ltd

It was nice interactive programme. Thank you very much for conducting the same – **George Job**, Sr. Marketing Manager, OcPL Global

A very informative and wonderful session no doubt. A big thank you to Dev Sir and the entire panel. I would request to conduct these classes or sessions more and more in future- **Aman Sharma**, Executive – Sales, Sai Sulphonates Private Limited

The session was really very interesting to me, which was presented in a really lucid manner by Dr. Dev. Though he is a person with vast and in depth knowledge on finance, the way he dealt with each term and went on interacting with us from one subject to another, it did not seem that it was a training session – rather an interaction during our university days- **Abhijit Chatterjee**, Secretary, Indian Foundry Association

Thank you for the great seminar. It was very informative, well presented and helpful for non-financial executives. **Ajay Kumar Agarwal**, CFO & Co Secretary, Gloster Ltd.
