MCCI ECONOMY WATCH

Message from President

Indian economy grew at a rate of 6.2% in Q4 of the previous fiscal pushing up the annual growth rate to 7.2% for FY23. Rise in GST collection, PMI in manufacturing, and robust core sector growth indicate stronger industrial output. However, merchandise exports dropped 22% in June from a year earlier, weighed down by sluggish global demand. Domestic demand faces headwinds from the uptick in inflation fueled by the acceleration in food prices. Uncertainties owing to weather conditions could impact the recovery in rural demand.

Wish you all a Happy Reading.

Namit Bajoria
President, MCCI
